

Rocky Mountain

This half mile, steep hike to the 2225 foot summit of Rocky Mountain has some great views of Fourth Lake and the surrounding area from its open summit (see panorama above). Simply follow the steep, well-worn trail (and yellow DEC discs) to the summit. The round trip of this hike is one mile, with an elevation gain of 448 feet. This hike is well worth exploring if you're in the Old Forge area.

Directions:
